

SHINHAN KEG

Made in Korea

SHINHAN KEG

The Best RSR Keg

 SHINHAN INDUSTRIAL CO., LTD.

Company Profile

Shinhan Industrial Company has...

#1 Keg Manufacturer in Korea

Shinhan Industrial Company supplies our 'Shinhan Keg' to the leading beer and beverage companies in the world, including the #1 brewery in the world, as well as the #1 brewery in Korea.

More than 50 Years of Experience

For more than 50 years, Shinhan Industrial Company provides our customers with the best keg expertise and offerings, meeting the various needs of our customers, and we remain committed to becoming the global leader in the keg market.

The World Class RSR Kegs

Shinhan Industrial Company specializes in RSR (Rubber-Steel-Rubber) kegs, which include rubber top and bottom chimes that are vulcanized onto the stainless steel body. This specialized keg provides additional layers of comfort when handling and helps to prevent damage in long term use.

KEG Services

Quick Delivery
Program

For Urgent Keg Needs

'Shinhan Keg' is located strategically, and works with many partners, to streamline supply to meet nearly any needs.

Empty Keg Return
Program

For Keg Logistics in Korea

We can collect, wash, keep and return kegs in Korea for overseas customers.

Rental
Program

For Occasional Keg Needs

Without any limitation on quantity and duration period, you can rent our kegs to meet any seasonal needs.

Rent-to-Own
Program

For Financial Flexibility for Kegs

Instead of renting kegs, you can make our 'Shinhan Keg' yours to own after installment payment for certain period.

Ready to Fill
Service

For Immediate Use

You can request 'Ready to Fill' kegs, which are washed, sterilized and pressurized with CO₂ before delivery.

Keg Repair
Service

For Repair and Replacement of Damaged Parts

We can repair dent or damages on keg body, chimes, neck, spear and replace any broken parts.

Keg Washing
Service

For Internal Cleanliness of Kegs

We can remove beer stone/dried residues in your used keg returning it to it's brand new glory.

Keg Renovation
Service

For External Cleanliness of Kegs

We can remove dirty sticker/old logo, re-polish, and re-print new logo on your used kegs, bringing new life to used kegs.

Keg Management
Service

For Enhanced Traceability of Kegs

We can put 2D matrix barcode, QR code, RFID transponder on your kegs to improve supply chain management and traceability.
